-  Classroom

Rejuvenate yourself and enjoy nature's beauty in the Ashton Gardens featuring 50-acres of stately gardens, grand lawns, and the largest man-made waterfall in the Western Hemisphere. In this secluded haven, your sense of wonder is always in bloom.

Stroll our themed gardens and admire the cascading fountains in the Italian Gardens, get an eagle's eye view of the gardens from the Vista Mound, feed the fish at Koi View Pier, and discover the Secret Garden. You can even rent golf carts for another way to "stroll" through the gardens.
